

GRANIT™ Detecto XPlus™ 8008 2.0

Seite 1 von 2

Secure powerhouse

The GRANIT™ Detecto XPlus 8008 2.0 - exceptional protection for exceptional motorbikes

The lock boasts a 16mm thick locking bolt made of specially hardened steel. Thanks to the integrated electronic warning system, the lock will trigger the 100dB alarm for 15 seconds if anyone attempts to move your locked bike. Afterwards, the GRANIT™ Detecto XPlus 8008 2.0 automatically re-arms itself. The integrated 3D position detection technology reacts to the slightest movement. The ABUS XPlus cylinder offers protection against lock picking.

The GRANIT™ Detecto XPlus 8008 2.0 includes a key with an integrated LED torch and a manually operated keyhole cover to protect against dirt and corrosion.

Technologies

- 5/8" steel bolt
- The bolt as well as supporting elements of the locking mechanism are made of special hardened steel
- Alarm of at least 100 dB
- Alarm function on basis of the ABUS 3D detection system that means, that every movement is detected
- Different acoustic signals inform about battery, activation and alarm status
- ABUS XPlus cylinder for highest protection against manipulations, e.g. picking
- Two keys are supplied with the lock
- Manually operated keyhole cover to protect against dirt and corrosion
- ABUS Code Card for additional or replacement keys
- Lock can be transported in locked condition without activated detection system thanks to automatic brake disc recognition system

Use and application

- Very good protection at high theft risk

GRANIT™ Detecto XPlus™ 8008 2.0

Seite 2 von 2

- Recommended for securing valuable motorbikes

Tips

- This lock can be ordered keyed alike to other locks. This means several locks would match one key, respectively key code
- One CR2 Battery for the alarm function is included
- Brake disk locks are a very compact category of motorbike locks and consequently easy to transport
- To increase the security during longer parking time it is recommendable to secure the motorbike to a fixed object additionally
- Thanks to the 3D detection system the motorbike rider gets warned when lifting the bike into upright position and an unintended ride off with the locked bike is prevented
