COMPACT AND LIGHTWEIGHT

Our TL-525 flashlight provides light in the dark with high-quality LED lights

Ideal for handbags, backpacks, or glove compartments in the car or camper: Our TL-525 flashlight ensures that you can find your way in the dark and immediately find dropped items. Practical: It can be set down anywhere without rolling off the table, hood, or other smooth surfaces due to its cuboid shaft. Thanks to the holster or optionally the loop on the shaft, you can hang it on a hook so that it can be stored to save space. The integrated red light function is useful for long journeys or flights, for example, when you don't want to disturb fellow passengers: This allows you to continue reading in peace without bothering others with too-bright light.
