

Plastic Lockout Hasp

Seite 1 von 2

FLEXIBLE AND NON-CONDUCTIVE

The H770 multipoint locking devices are made of plastic.

This allows six padlocks to be mounted at once instead of just one, so that up to six people can independently secure the energy point against unauthorized reconnection.

Technologies

- High-quality nylon: long-lasting, light and non-conductive
- Holds up to 6 padlocks

Operation and use

- Lock out power switches during maintenance
- Ideal for lockout applications where more than one safety padlock has to be attached

Variants

- Colour: Red
