

# CYLOX™ One with inside knob

Seite 1 von 2

## YOUR DOOR, YOUR RULES

Manage access to your home, rental properties or interior spaces such as offices with the CYLOX One in an uncomplicated, secure and flexible way via app. Activate the smart cylinder with a touch, turn the knob and you're in.

Do you want to grant controlled access to your home or certain rooms to changing people, such as care services, tradespeople or cleaning staff? Do you want your family to have keyless access to your home? Or do you manage holiday accommodation and want to easily organise access for changing guests?

Manage individual access authorisations for your door with the ABUS One app instead of the key and equip it with a security upgrade: the smart electronic cylinder CYLOX One offers SKG\*\*\*-tested drill protection and increased resistance to tampering. It is also suitable for tenants, as cylinder replacement does not usually require the landlord's permission.

Control your CYLOX One remotely with the BRIDGE One and integrate it into your smart home. Enjoy keyless convenience combined with reliable ABUS security with the smart cylinder.

## Technologies

- High security thanks to ABUS SmartX™ technology, AES 128-bit encryption and ABUS Keycard for admin authentication
- Maximum flexibility thanks to the modular cylinder construction
- Powered by replaceable battery (1 x CR2 battery included)
- SKG\*\*\*-tested drill protection with hardened pins
- Special pins provide increased resistance to tampering
- Dustproof and waterproof according to IP67 certification
- Compatible with: Bluetooth® remote control (CFF3100), Bluetooth® keyboard (CFT3100) and Bluetooth® finger scanner (CFS3100)

# CYLOX™ One with inside knob

## Operation and use

- For front and flat entrance doors with Euro profile cylinder – can be operated with the ABUS One app
- Cylinder length can be customised to the door thickness thanks to the modular construction
- Easy operation with the ABUS One app on a smartphone or smartwatch, via keypad, finger scanner or remote control
- Send access authorisations and limit them in time or share permanent access
- Remote access possible with the optionally available BRIDGE One

## Variants

- Afwerking: NM = Nikkelmat - hoogwaardig, mat vernikkeld oppervlak
- Met binnenknop of binnensleutel
