

ALWAYS AT HAND

No more misplacing, no more dropping - the glasses strap ensures that the glasses are always where you need them.

The ABUS glasses strap is ideal for our Dapteo, Xacto and Ocudo safety glasses. The glasses strap is particularly practical for applications where the glasses have to be put on and taken off frequently. The glasses strap also provides additional support during movement-intensive work. The flexibly adjustable eyelets allow optimum adjustment to different temple sizes. The soft textile strap is comfortable to wear without getting in the way. Thanks to the flexible adjustment options, the glasses fit securely and firmly, even during fast movements.

Technologies

- Textile strap with flexibly adjustable eyelets for different temple sizes
