

SMALL BUT SAFE

Lightweight interior doors close by themselves with this door closer.

Do you know this too? With this door closer, slamming doors are a thing of the past. The closer is suitable for lightweight interior doors weighing up to 20 kilograms. The closing speed can be adjusted in three stages, and assembly is particularly convenient because the door closer only needs to be plugged on. Damage to the door can thus be ruled out.

Technologies

- Closing speed adjustable in 3 steps
- Can be taken off anytime
- No drilling, no screwing
- For rebates up to 16 mm

Operation and use

- For light interior doors
- Can be used DIN R / DIN L
