

PoE Splitter 5 V DC / 1 A

Art.-Nr. TVAC25015

Seite 1 von 2

This PoE Splitter (Power over Ethernet splitter) enables the supply of power to 5 V DC network end devices, such as ABUS network cameras, which are not PoE compatible and instead use CAT5/CAT6 cables. This is particularly advantageous in areas without power sockets.

Technologies

- Power and data transmission for 5 V DC network end devices that are not PoE compatible
- Distributes the power and data signals of the ABUS 4 Channel Network Video Recorder (TVVR36000) to the ABUS Wi-Fi HD 720p Pan/Tilt Indoor Camera (TVIP21560)
- Fulfils the requirements of IEEE standard 802.3af
- Compact construction
- Plug & Play

Technical data - PoE Splitter 5 V DC / 1 A

Connection cable length	0,3 cm
Data output	10/100 MB/s
Dimensions	(LxWxH) 73 x 63 x 29 mm
Height	29 mm
Input	1xRJ-45 (PoE, data & voltage)
Input voltage AC	48 V DC
Length	73 mm
Max. humidity	90 %
Max. operating temperature	60 °C
Min. operating temperature	-10 °C
Net weight	0,175 kg
Output	1x RJ-45, 1x DC

PoE Splitter 5 V DC / 1 A

Technical data - PoE Splitter 5 V DC / 1 A

Output power	10 W
Output voltage AC	5 V DC
PoE standard	802.3af
Width	63 mm
