

FOR CHALLENGING PERSONAL SAFETY REQUIREMENTS

Electric assistance not only increases your cycling speed, but also the risk of injury if accidents happen.

In the Netherlands, riders of speed e-bikes have to wear a helmet that conforms to special requirements. With the Pedelec+, ABUS is one of the first manufacturers to offer a cycle helmet which perfectly meets these special requirements. The Pedelec+ can handle the more demanding test levels and not only fulfils the European standard for cycle helmets (CE EN 1078), but also the Netherlands standard for speed pedelec helmets (NAT8776). With the Pedelec+ from ABUS, you can play it safe.

Technologies

- Double shell In-Mold for durable fusion of the outer shell and the shock absorbing helmet material (EPS)
- Deep temple and neck protection
- High visibility due to powerful reflectors
- Size adjustment via half ring made of robust and flexible plastic for ideal stability and adaptability
- Large, highly mounted and integrated LED tail light with 180° visibility
- Zoom Evo Adult - precise adjustment system with handy wheel
- Foamed in fly net with removable visor
- Rain cap integrated in the helmet
- Fidlock magnetic lock

Tips

- This helmet holds increased test scores and fulfils the Dutch standard NTA8776
