

Secvest Wireless Outdoor Motion Detector

Art.-Nr. FUBW50022

Seite 1 von 2

Sturdy detector for reliable motion detection

The Secvest wireless outdoor motion detector responds to all types of moving body heat and reports this reliably to the Secvest wireless alarm system. Used as a perimeter breach alarm, it monitors the outdoor areas of your home. As soon as someone enters the detector's monitored area, an outdoor siren can transmit a warning signal, which may prematurely scare off potential intruders.

Versatile use

The integrated PIR elements can be panned by 180° and tilted by 90°, allowing the detector to be used in nearly any location. The detection range - depending on installation height - is up to 30 metres.

Technologies

- Outdoor motion detector for perimeter surveillance
- With dual-infrared element
- Detection range of up to 30 m
- Protection class IP55

Technical data - Secvest Wireless Outdoor Motion Detector

Battery - max. battery life	2 y
Battery - type	CR123
Certifications	conform according to EN 50131-1
Compatible with	Secvest, Terxon, BUM060040
Depth	115 mm
Detector coverage area (m)	11 – 30 m
Dimensions	(BxHxT) 155x120x115 mm
Environmental class	IV
Gross weight	0,88 kg

Technical data - Secvest Wireless Outdoor Motion Detector

Height	120 mm
Housing material	Polyethylene HDPE
IP protection class	55
Language of instructions	DE, UK, FR, NL, DK
Language packing	DE, UK, FR, NL, DK, PL, SE, ES
Length	115 mm
Max. humidity	75 %
Max. operating temperature	55 °C
Max. transmission range (building)	30 m
Max. transmission range (free field)	100 m
Min. operating temperature	-20 °C
Modulation	FM
Net weight	0,75 kg
Pulse selector switch	Yes
Radio frequency	868 MHz
Sabotage monitoring	Yes
Sensor type	Independent duplex PIR unit
Status display	LED
Type of detection	Heat recognition
VdS class	none
Voltage monitoring	Yes
Width	155 mm
