ALL-INCLUSIVE FOR WAPPLOXX PRO PLUS (1 CYLINDER)

The electronic locking system wAppLoxx Pro Plus

Digital access control for companies: efficient and convenient, online-capable and radio-networked. Software management and app for 160 doors. If required, wAppLoxx Pro Plus can also be used to operate (arm/disarm) an intrusion alarm system (see Intrusion Starter Kit).

Complete package for a quick start
The Starter Kit Access Black contains the wAppLoxx Pro Control Plus access control panel for up to 160 doors and 1,000 users. And a wAppLoxx Pro cylinder with outside knob in the color variant black.

Cylinder variant
The enclosed cylinder is an electronic double knob cylinder with Mifare Desfire EV1 reader (in secure mode), standard size 30/30, with drill protection standard and with access control (without EMA functionality).

Extensive accessories
The scope of delivery includes all accessories (power supply unit, network cable, transponder, tool set) for the installation and commissioning of the access control system.

Technologies
