BORDO™ One 6000A/120 RC black + remote control + bracket SH

SMART IS SECURE

Enjoy the advantages of the innovative SmartX technology and turn your smartphone into a key: always with you, easy to find and simple to use.

Thanks to integration with the ABUS One app and proven ABUS SmartX™ Bluetooth technology, operation of the bike lock is completely keyless.

Combined with the 100 dB loud alarm to deter bike thieves, it offers you a high level of security for high-value e-bikes and cargo bikes.

For those who want something less smart but still convenient, the BORDO™ One 6000A can be optionally operated with the remote control. In the RC variant (RC = Remote Control), this is included in the scope of delivery; for the other variants, the remote control is available separately.

Technologies

- 5 mm thick rods with extra-soft 2-component coating
- Smart locking system with Bluetooth® connection – user-friendly opening and closing without a key via smartphone
- Secure SmartX technology with integration in ABUS One
- Simple and secure integration of multiple users/smartphones
- Alarm function with min. 100 dB for 15 seconds, then automatic re-arming
- 3D position detection – detects vibrations and the smallest of movements in all three dimensions and triggers an

BORDO™ One 6000A/120 RC black + remote control + bracket SH

alarm
- Smart alarm – the lock only emits a short warning tone in the event of minor and brief vibrations, e.g. if a football bounces nearby
- USB-C port
- Storage of the bike's last parking location
- LED status display
- RC variant can be operated via included remote control (for all other variants, the remote control is available separately)
- Incl. holder (SH)
- CR123A battery

Use and application
- Recommended for smart protection of high-value two-wheelers (bicycle, e-bike, etc.)
- Keyless opening and closing via smartphone makes everyday handling easier
- Alarm function increases security in both busy and less frequented locations
